PREFACE

This bibliography includes topics that reflect some of homeland security's many challenges: borders and immigration, cybersecurity, organization, policy, response capabilities, and resourcing.

With certain exceptions, the materials in this bibliography are dated from 2011 to the present. For older materials, please see *Homeland Security*, compiled by Greta Andrusyszyn, March 2011. All items are available through the USAWC Library – Root Hall. For your convenience, we have added U.S. Army War College Library call numbers, Internet addresses, or database links at the end of each entry. Web sites were accessed July 2014.
