

# INNOVATION

## A Selected Bibliography

U.S. ARMY WAR COLLEGE LIBRARY

December 2013

## PREFACE

This bibliography looks at the important elements of innovation affecting the military. This selected bibliography reflects books, documents, periodical articles, multimedia and websites relating to this topic.

With certain exceptions, the materials in this bibliography are dated from 2008 to the present. All items are available through the USAWC Library. For your convenience, we have added U.S. Army War College Library call numbers, Internet addresses, or database links at the end of each entry. Web sites were accessed December 2013.

Due to licensing agreements, access to articles in the Library's subscription databases is limited to current USAWC faculty, staff, and students. When off-network, USAWC personnel should use their login and password for remote access. For the Army community stationed elsewhere or deployed, many articles are online in AKO's "My Library" databases. Local libraries are another option.

This bibliography and others compiled by our research librarians are available online through the Library's home page at <http://www.usawc.libguides.com/bibliographies>.

For additional information, please contact the Research, Instruction, and Access Services Branch, U.S. Army War College Library, by sending an e-mail message to [USAWC.LibraryR@us.army.mil](mailto:USAWC.LibraryR@us.army.mil), or by phoning DSN 242-4259 or Commercial (717) 245-4259.
