MEMORANDUM FOR CLASS OF 2004 STUDENT SPOUSES

SUBJECT: Command Team Training Opportunities

1. One of the objectives of the Military Family Program is to prepare U.S. Army War College students and their spouses for their future roles as senior leaders in developing and implementing personal, unit, and community family programs. To accomplish this objective, a series of lectures, seminars, and workshops are presented throughout the academic year.

2. During the academic year students will be identified for command and high-level positions that affect families under their span of control. We are always asked by the spouses of these students what course presentations they should attend as they prepare for increased command team responsibility in advising and mentoring family programs in their future assignments.

3. Please note the enclosed list of recommended courses. If you have questions or recommendations, please call Joe York at 245-4787 or e-mail [Joseph.York@carlisle.army.mil](mailto:Joseph.York@carlisle.army.mil). For further information go on-line to <http://cbnet/orgs/dclm/milfam/MilFamilyLinkPage.html>.
